- ✓ Extra bonuses for continuous learning even after the completion of the course

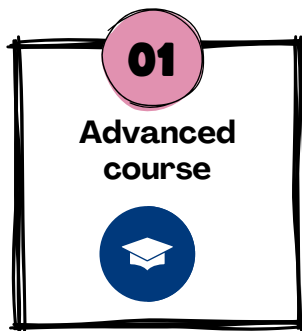

Suren Kolkankar

International Master Trainer of NLP
(ABNLP & ANLP International CIC UK)

About the course

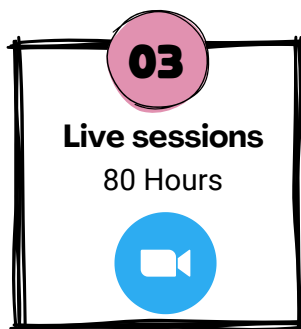

In this NLP Master Practitioner course, you will have the privilege of continuing to build on the knowledge you have acquired through your NLP Practitioner training.

Dive deeper into the depth of NLP with advanced techniques and methodologies, empowering you to create lasting change in yourself and others.

This course is internationally approved from the prestigious American Board of NLP (ABNLP) & ANLP International CIC, ensuring credibility and global recognition.

It will be conducted over a duration of 120 hours, consisting of 80 hours of live online sessions and an additional 40 hours of self-study.

The course is comprised of 24 engaging interactive live sessions packed with activities and demonstrations all designed to enrich and deepen your learning experience.

Course highlights

-  **Hands-On Learning:** Immerse yourself in experiential exercises, case studies, and real-life applications of NLP, allowing you to master the techniques with confidence and proficiency.
-  **Expert Guidance:** Learn from the recognised trainers who bring a wealth of knowledge and practical experience to the table, ensuring a transformative learning journey.
-  **Interactive Live Sessions:** There are 32 live sessions included in the course, totalling 80 hours of live interactive sessions.
-  **Personalised Support:** Receive personalised coaching and feedback throughout the course, tailored to your individual learning needs and goals.
-  **Global Recognition:** Our NLP Master Practitioner certification is globally recognized, opening doors to new opportunities and enhancing your professional credibility.

What will you learn?

-  The skills of geniuses - new art forms, capabilities and states of mind to accelerate your learning by several years/ decades through NLP modelling.
-  Explore the link between a person's behaviours, thoughts, emotions, and language, and the outcomes (or consequences) they produce.
-  How values are formed, learn how to elicit, organise and reorder values.
-  Learn the amazing insights of Meta Programs to truly understand how others think.
-  Powerful exercises to pick up amazing altered states of consciousness.
-  Gain a greater sense of social awareness, and improve your social skills.
-  Deliver captivating presentations that captivate and inspire your audience & much more....

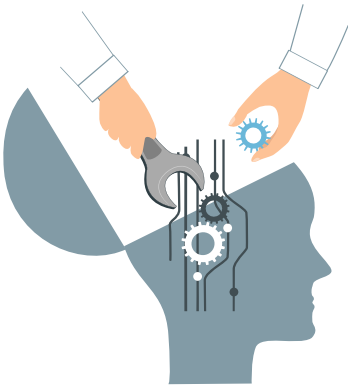

Key Topics

Quantum Linguistics

In quantum linguistics, language is seen as more than just a tool for communication; it is also viewed as a powerful tool for shaping perceptions, beliefs, and reality itself.

Just as in quantum physics where the observer can influence the observed outcome, in quantum linguistics, the speaker's choice of language and the listener's interpretation can have profound effects on their mental states and behaviors.

NLP Modelling

NLP modelling is based on the premise that successful behaviors and strategies can be learned and replicated by anyone through careful observation and practice.

This process involves breaking down the components of a person's behavior or mindset into specific steps or strategies that can be learned and applied by others.

Meta Programs

Meta Programs are essentially the 'programs' that run in the background of our minds, shaping our behaviors and responses. They influence how we make sense of the world, form beliefs, and make decisions.

By identifying and understanding these patterns, individuals can gain insight into their own thinking processes and behaviors, as well as those of others, leading to more effective communication and interpersonal relationships.

Key Topics

Conversational Hypnosis

Conversational hypnosis is a technique used to influence and persuade others subtly through conversation.

It draws on principles of hypnosis, communication, and psychology to create rapport and induce a trance-like state in the listener, leading them to be more receptive to suggestions.

Spiral Dynamics

Spiral Dynamics is a model of human development and cultural evolution developed by Clare Graves and popularized by Don Beck and Christopher Cowan.

It suggests that human values and worldviews evolve in a spiral pattern through different stages, each characterized by a particular set of beliefs, values, and behaviors.

Sleight of Mouth patterns

Sleight of Mouth patterns are a set of language patterns designed to help individuals effectively challenge and reframe limiting beliefs or objections in order to facilitate personal change or persuasion.

The term "sleight of mouth" is derived from "sleight of hand," suggesting a skillful manipulation or redirection of language. These patterns are often used in coaching, therapy, sales, and other interpersonal contexts where influencing beliefs and attitudes is important.

Course Curriculum

QUANTUM LINGUISTICS

- 1) Cartesian Coordinates
- 2) Decision Destroyer
- 3) De-Identification Pattern
- 4) Meta Model III
- 5) Time Scramble
- 6) Prime Concerns
- 7) Chaining Modal Operators
- 8) Symbolic Logic

META PROGRAMS

- 1) Basic Meta Programs
- 2) Complex Meta Programs

SPIRAL DYNAMICS

- 1) Memes & Vmemes
- 2) First & Second Tier Memes
- 3) Stages of development

NLP MODELLING

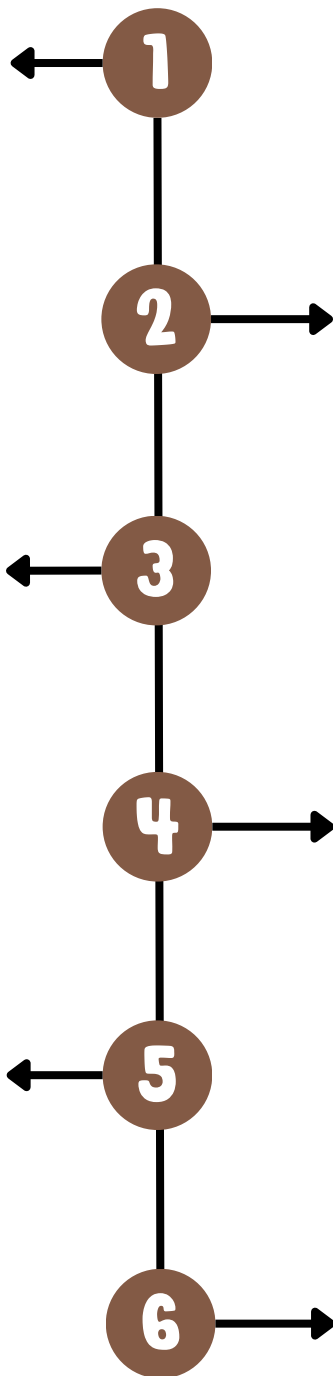

- 1) Keys to Modelling
- 2) Components of Modelling
- 3) Implicit Modelling
- 4) Explicit Modelling
- 5) Modelling project

CONVERSATIONAL HYPNOSIS

- 1) Fractionation
- 2) Embedded Commands
- 3) Embedded Quotes
- 4) Analogue Markers

VALUES

- 1) Ends & Means values
- 2) Towards & Away values
- 3) Hierarchy of values
- 4) Values Elicitation

Course Curriculum

SLEIGHT OF MOUTH PATTERNS

- 1) Types of SOM patterns
- 2) Two forms of surface structure

PRESENTATION SKILLS

- 1) 4MAT System
- 2) Prime motivators
- 3) Satir categories

ADVANCED ANCHORING

- 1) Sliding anchors
- 2) Ecstasy pattern

WALT DISNEY STRATEGY

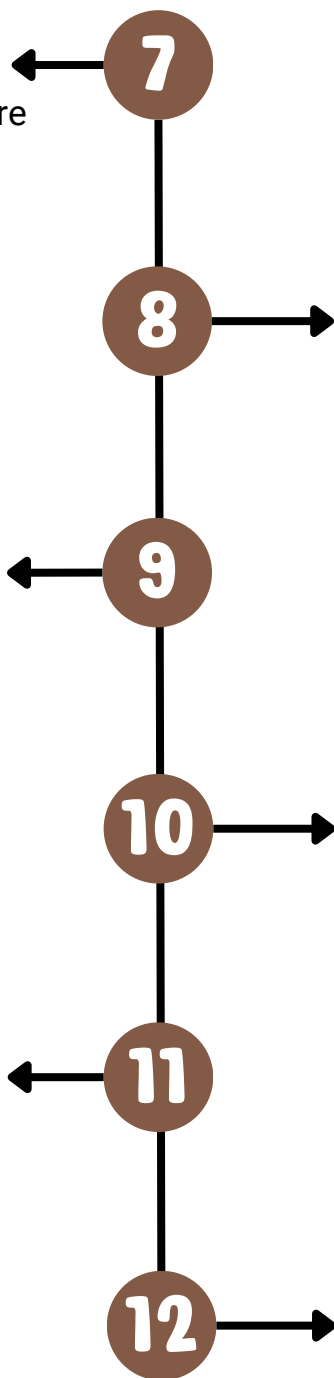

- 1) Disney creative strategy
- 2) The three roles

ADVANCED SUBMODALITIES

- 1) Compulsion blowout
- 2) Last straw technique
- 3) Godiva chocolate pattern
- 4) Creating compelling future
- 5) Confusion to understanding

OTHER TECHNIQUES

- 1) Advanced Timeline
- 2) Wealth Dynamics
- 3) SCORE Model
- 4) SOAR Model
- 5) ROLE Model
- 6) Socratic questioning
